

OPS 370 – PRINCIPLES OF OPERATIONS MANAGEMENT

CURRENT EVENTS PRESENTATION

Each student will prepare and deliver one 8 to 10 minute presentation on a current event topic related to Operations Management. Presentations will occur over the last two weeks of class and will be scheduled in advance.

Upload your completed PPT to Entropy

- Investigate the web for a real world example of any of the topics from the first 7 modules and relate the real world case to concepts we have discussed
- Prepare an eight to ten minute presentation to the class to discuss the topic.
- Think in terms of:
 - Company
 - Major issue related to Operations Management
 - Problem
 - Potential measurement techniques
 - Potential Solution
 - How it relates to one of the modules we have discussed.
 - a. What measurement techniques might apply
 - Suggestion(s) you might make

Evaluation

1. Relevance to the course material
2. Clarity of presentation
 - a. Is there an overview
 - b. What is the problem
 - c. How does it relate to the class
 - d. Suggestions clear
3. Presentation Style
 - a. Knew the material
 - b. Engaged the class
 - c. Looked at the class versus the slides
 - d.
4. Did the class learn something?
